HEAT TREATMENT FURNACE CONTROL PRODUCTS,
SYSTEMS AND SERVICES.
NEWS BULLETIN WEEK 16

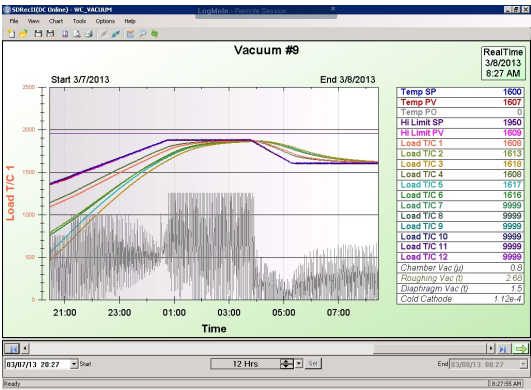

THIS WEEK WE WANT TO SHARE:
SSi's Software Range

If you're planning a review of your heat management software in order to make it easier to manage the department and analyse data **from wherever you're working**, here's a summary of the **state-of-the-art software** available from SSi:

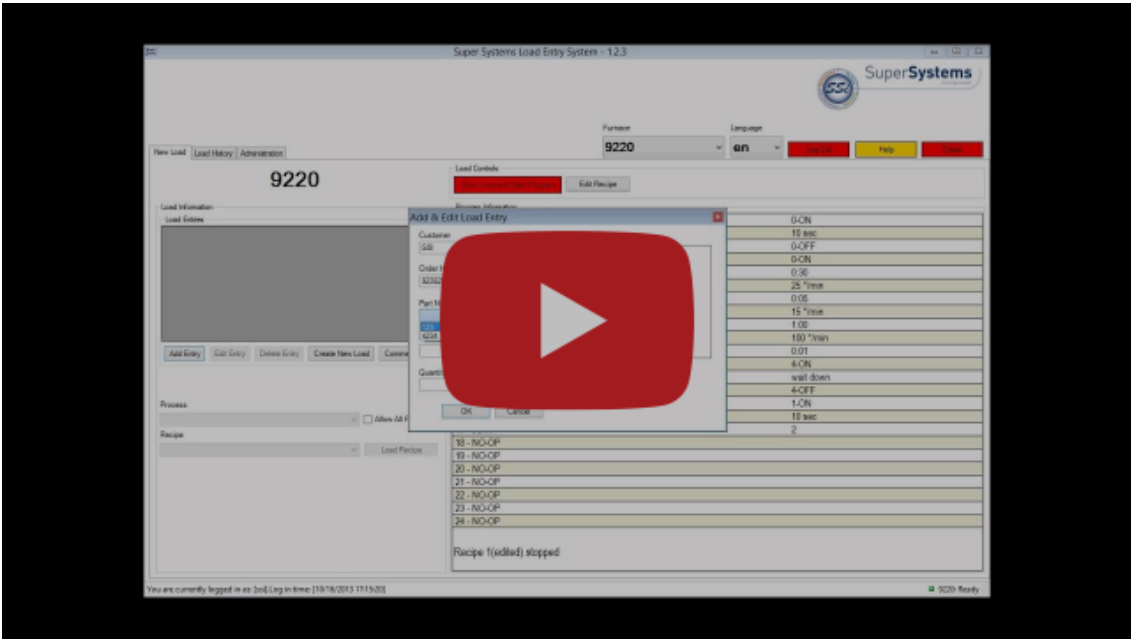

SuperData Pro Suite

Advanced SCADA software including charts and visualisation of equipment.

Load Entry 3

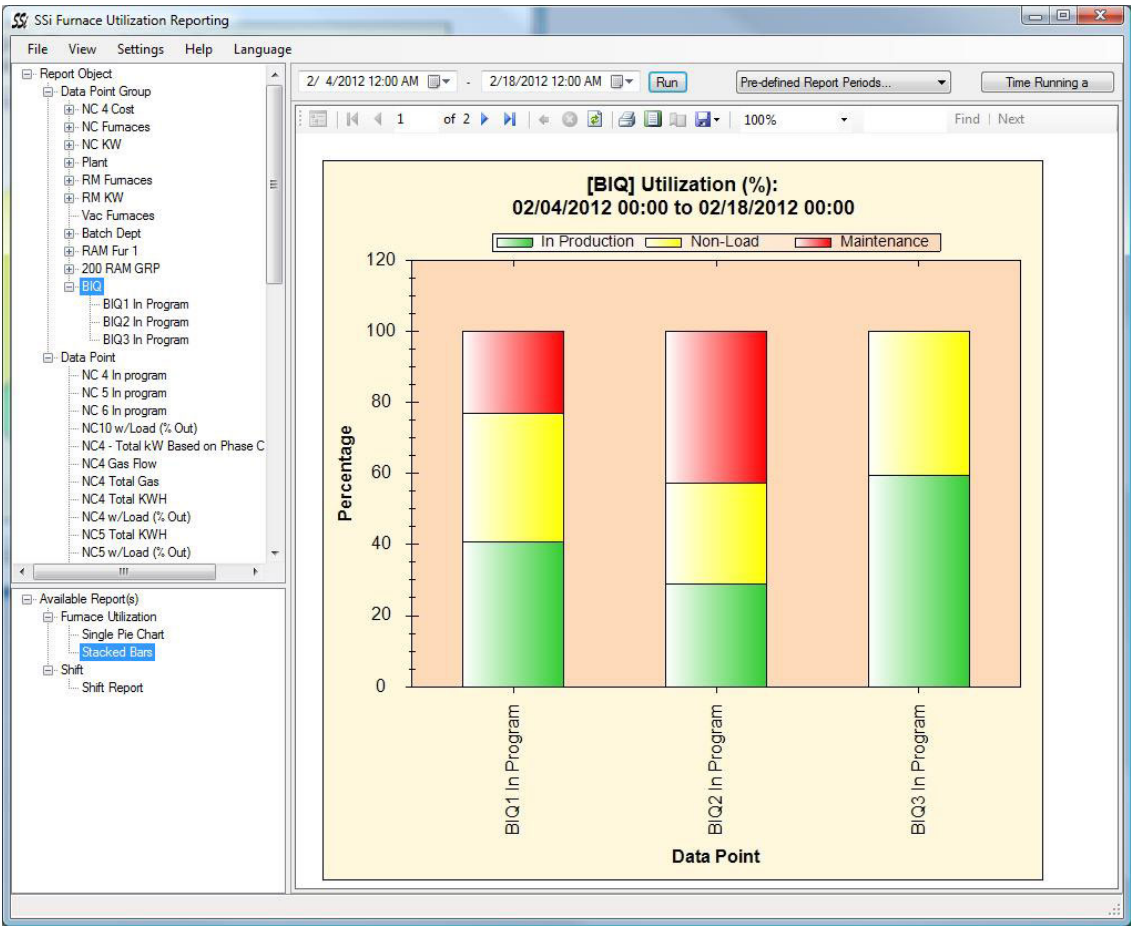

Off the shelf load tracking software,
making it easy and quick to install and set up.

Watch the video

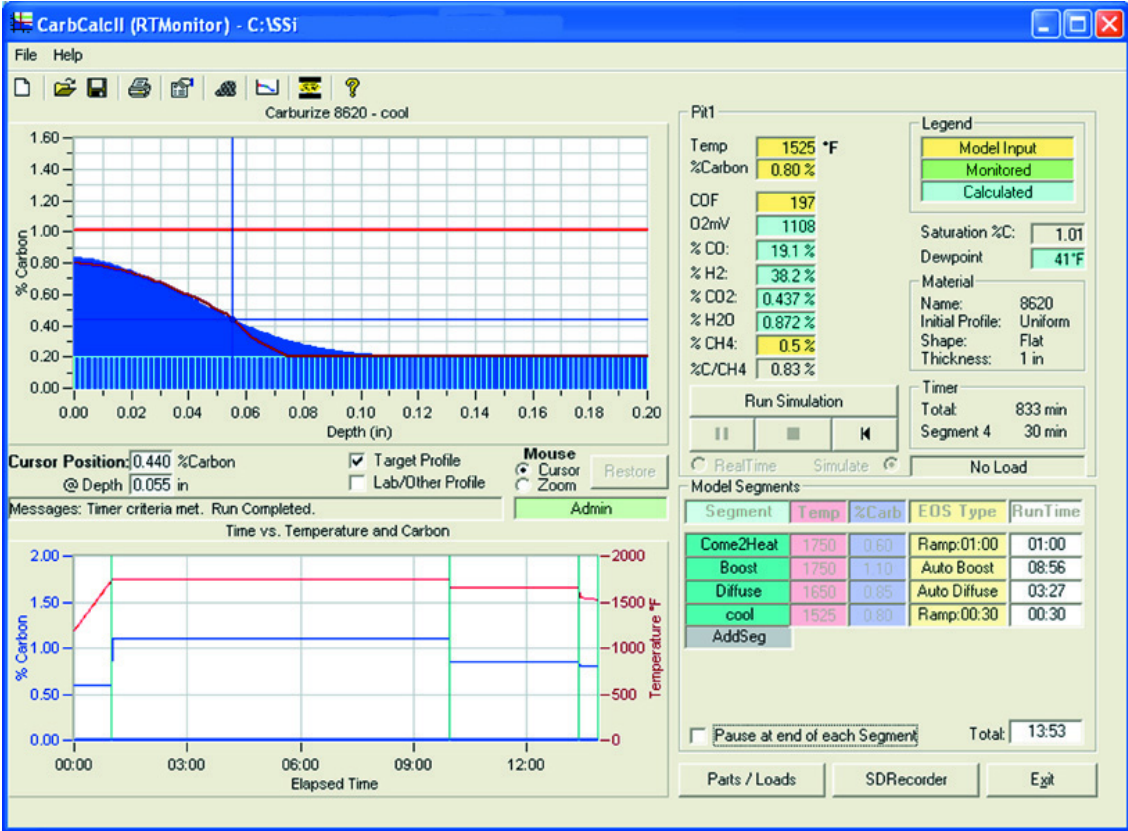

FURS

Furnace utilisation software, allowing analysis of cost per load, shift, day, week, month etc.

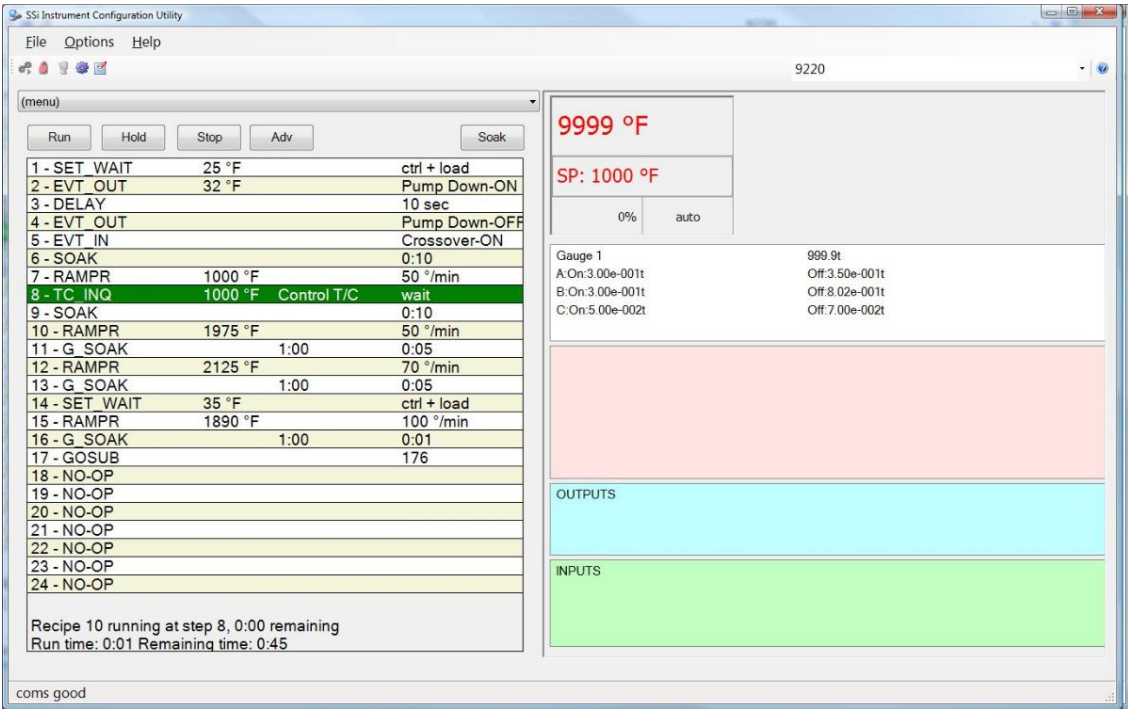

CarbCal 2

Carbon diffusion modelling.
Run loads compared to empirical carbon diffusion data.

Configurator

Remote set up, recipe management, back up
and restore of SSI instrumentation.

SuperCalc

Mobile app based atmosphere verification tool.
Throw way your old paper charts.

Mobile Charting

View real-time charts on your mobile device

Mobile Load Entry.

View load tracking data on your mobile device

[Contact us](#) for an initial discussion about your requirement.

We can make it quick and easy to get the software you need within a reasonable budget and time frame.

Thank you for reading this bulletin. Please contact us with any questions.
